

Go through the clues, crossing out the cells in the table which are impossible accordingly to one of the clues.

One of the possible helpful observations is to notice the combination of clues 1 and 3. Clue 3 sets the order of departure as (X) person who took kayak, (X+1) Martin, (X+2) person who arrived last. Clue 1 says that person who arrived last didn't depart last, so they were 3rd to depart.

After this:

- the only person who could have departed last will be Irene,
- the only person who could have departed second will be the person who arrived first,
- the only person who could have departed last will be the person who took vaporetto,
- and so on.

| ARRIVAL   | DEPARTURE |          |          |          | TRANSPORT |          |          |          | NAME     |          |          |          |
|-----------|-----------|----------|----------|----------|-----------|----------|----------|----------|----------|----------|----------|----------|
|           | 1         | 2        | 3        | 4        | Gondola   | Kayak    | Tragh.   | Vapor.   | Brandon  | Irene    | Martin   | Nicole   |
| 1         | L         | <b>G</b> | E        | K        | S         | I        | <b>R</b> | O        | O        | X        | <b>A</b> | T        |
| 2         | S         | W        | P        | <b>N</b> | C         | U        | B        | <b>D</b> | K        | <b>C</b> | H        | R        |
| 3         | <b>A</b>  | T        | K        | I        | P         | <b>N</b> | A        | T        | <b>A</b> | B        | U        | N        |
| 4         | D         | J        | <b>L</b> | C        | <b>E</b>  | T        | M        | G        | F        | E        | S        | <b>A</b> |
| Brandon   | <b>R</b>  | Q        | D        | T        | K         | <b>L</b> | E        | M        |          |          |          |          |
| Irene     | P         | H        | U        | <b>I</b> | G         | Y        | O        | <b>E</b> |          |          |          |          |
| Martin    | O         | <b>S</b> | F        | E        | A         | R        | <b>T</b> | D        |          |          |          |          |
| Nicole    | C         | E        | <b>B</b> | Z        | <b>R</b>  | F        | H        | V        |          |          |          |          |
| Gondola   | U         | F        | <b>I</b> | S        |           |          |          |          |          |          |          |          |
| Kayak     | <b>D</b>  | O        | T        | L        |           |          |          |          |          |          |          |          |
| Traghetto | N         | <b>G</b> | A        | K        |           |          |          |          |          |          |          |          |
| Vaporetto | Y         | C        | R        | <b>E</b> |           |          |          |          |          |          |          |          |

After you figure out which cells of the table correspond to correct facts, read the letters in them row-by-row to get the clue: GRAND CANAL EARLIEST BRIDGE.

**Answer: RIALTO**
