

Four friends staying in Venice agree to meet at St.Mark's square to do some sightseeing. They want to see different things before that, so they depart from their hotel at different times, take different routes using different means of transportation, and arrive at the square at different times as well. Figure out the orders of departure and arrival, as well as transport taken by each person, if you know that:

1. The arrival order of each person differed from their departure order.
2. The person who took gondola, who wasn't the last to depart, isn't the person who arrived first.
3. Martin departed immediately after the person who took kayak and immediately before the person who arrived last.
4. Nicole isn't the person who took traghetto, who didn't depart first.
5. Brandon departed earlier than the person who arrived second, and arrived immediately after the person who took vaporetto.
6. The person who departed last, who wasn't Nicole, arrived after the person who took traghetto.
7. Irene was neither first nor last to arrive.

ARRIVAL	DEPARTURE				TRANSPORT				NAME			
	1	2	3	4	Gondola	Kayak	Tragh.	Vapor.	Brandon	Irene	Martin	Nicole
1	L	G	E	K	S	I	R	O	O	X	A	T
2	S	W	P	N	C	U	B	D	K	C	H	R
3	A	T	K	I	P	N	A	T	A	B	U	N
4	D	J	L	C	E	T	M	G	F	E	S	A
Brandon	R	Q	D	T	K	L	E	M				
Irene	P	H	U	I	G	Y	O	E				
Martin	O	S	F	E	A	R	T	D				
Nicole	C	E	B	Z	R	F	H	V				
Gondola	U	F	I	S								
Kayak	D	O	T	L								
Traghetto	N	G	A	K
